Sichuan Opera- Face Changing

Sichuan Opera features vivid, humorous narration, singing, and acrobatics. It also boasts a system of stylized movements and its acting is both exquisite and lively. Sichuan Opera performances are always full of wit, humor, lively dialogues, and pronounced local flavors. To portray special characters, the opera incorporates a series of stunts, including the famous "face-changing." In Chinese opera, facial makeup is usually painted, but in Sichuan Opera, the performer can change his or her facial makeup in the snap of a finger right on stage.
